It is the responsibility of each School District to designate a person who will be responsible for seeing that AHERA requirements are carried out. This person would need to:

1. Understand the requirements of AHERA
2. Be in a position to know of financial resources that might be available and procurement procedures.
3. Be able to make decisions regarding response actions.
4. Know and direct what to do in the event of a fiber release episode of ACM. He/she must also file the required records of the incident.
5. Review the inspection, the management plan report, provide the necessary input to the management planner, and submit the final draft of the plan to the State.
6. Be responsible for seeing that the management plan is updated as required by AHERA.
7. Have adequate training to carry out the above and have knowledge of:
  - \* Health affects of asbestos
  - \* Detection, identification and assessment of ACM
  - \* Options for controlling asbestos
  - \* Asbestos management programs
  - \* Relevant Federal and State regulations concerning asbestos, including those in AHERA subpart E, OSHA, U.S. Dept. of Labor, U.S. Dept. of Transportation, and in the U.S. EPA regulations.

These requirements for the Designated Person are according to an interpretation of AHERA in general and specifically Subpart E, Section 763.84.
